The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach a method of processing a digital signal resulting from readout of an analogue signal that results from reading data from a recording medium, the analogue signal being substantially altered or destroyed as a result of an event occurring during the readout, the method comprising: decoding the digital signal resulting from the analogue signal that is substantially altered or destroyed, the decoding step resulting in a sequence of bits representing the read out analogue signal, the sequence of bits including what appear to be good and bad data; supplying the decoded digital signal to a decoder that marks as invalid bad data of the decoded digital signal; and marking the data that appears to be good and which is derived while the analogue signal is substantially altered or destroyed from being indicated by the decoder as bad data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
